

Biblioteca Book Management

Welcome to the official Biblioteca Documentation page! Here you will find all the information you need to get started with and use Biblioteca.

- Demo >

What is Biblioteca?

Biblioteca is a web application created to manage your personal library. This is an alternative to Calibre and other similar software.

Why another library system?

I created Biblioteca because I wanted to have a simple and easy-to-use library manager. I was not satisfied with the existing solutions, so I decided to make my own.

Features

- Efficient and fast search
- Natural language search powered by AI
- Tagging and summarization with OpenAI or Ollama LLMs
- Easy to use interface
- Mobile friendly
- E-INK friendly
