Pricing

Vector Magic is available both as a service on this website (Online Edition) and as a stand-alone desktop application (Desktop Edition).

You can upload, vectorize, and preview the result for as many images as you like without commitment. However, to download results you need to subscribe to the Online Edition. Alternatively, you can buy the Desktop Edition and use the software offline.

♥ Easy

Vector Magic turns the difficult and tedious task of tracing a bitmap by hand into an effortless click-click-done experience. Get back in control of your images!

👍 Excellent

If you compare results (/comparisons) from other tools, you will notice that Vector Magic produces vectors that are more faithful to the bitmap original. This makes them often immediately usable, and if cleanup is required there's much less of it.

🐖 Economical

With the high cost of outsourcing and the time hand-tracing takes, Vector Magic pays for itself with even a minimum of use. And since usage is unlimited, it always makes sense to try it on any image you need vectorized.

⚡ Expedient

Why wait when you don't have to? Vector Magic returns results right away so that you can get on with your day and what really matters.

Which option should I choose?

To help you choose between the Online and the Desktop Editions, here is the feature matrix:

Feature	Online	Desktop
Fully automatic vectorization	Yes	Yes
Basic vectorization mode, with easy-to-choose settings	Yes	Yes
Advanced vectorization mode, with fine-grained control		Yes
EPS, SVG and PDF vector output	Yes	Yes
AI, DXF vector output		PC
AI vector output		Mac
PNG, GIF, BMP bitmap output		Yes
JPG, TIFF bitmap output		PC
Powerful preview to inspect the result in detail	Yes	Yes
Segmentation editing capabilities	Yes	Yes
Super-convenient copy-paste input	Yes	Yes
Super-convenient drag-and-drop input	Yes	Yes
Super-convenient drag-and-drop output		Yes
Vectorize very large images		Yes
Group shapes by color		Yes

Feature	Online	Desktop
Transparency support		**Yes**
Batch processing		**Yes**

Will it work with my software?

At least one of Vector Magic's output formats generally works with most modern software. You can download sample output below, or check out the compatibility page (/support/compatibility) to confirm that the output will work with your specific software. The Desktop Edition (/desktop) download comes with a full set of samples as well.

Fill Only (/support/und

- SVG (https://d2f7anuvnar8n5.cloudfront.net/external_assets/examples/cogs_v2/result.svg)
- EPS (https://d2f7anuvnar8n5.cloudfront.net/external_assets/examples/cogs_v2/result.eps)
- PDF (https://d2f7anuvnar8n5.cloudfront.net/external_assets/examples/cogs_v2/result.pdf)

Stroke + Fill (/support/s

- SVG (https://d2f7anuvnar8n5.cloudfront.net/external_assets/examples/cogs_v2/resultStrokeAndFill.svg)
