"No white people in sight" except for the main character, the main romantic interest, said romantic interest's boyfriend, the vast majority of the team you're in charge of and about 90% of your co workers. You racist assholes are really dumb aren't you?

mikeslemonade (23 Oct 2025, 18:50)

Hey how we be racist if Jews aren't human. It's more like we don't like an animal or alien that is causing most of the worlds problem. If it's always them causing the problem and you like it, there's something wrong with you.

how do i fix the no licenses thing on steam when i try and run the game?

A: Because you didn't copy the crack files from the ISO file (inside the /RUNE folder) and paste them into the game folder (where you installed the game). Make sure to click "Replace" if asked.
